Call History

Feature Description
Call History enables you to view telephone numbers from calls that you have missed, received and dialed.

When you click any of the tabs, the Name, Number and Date/Time of the call appears. You may call the number by clicking the link of the telephone number.

Benefits
Convenience — Dial calls automatically with the click of a mouse.

Information — Access contact information instantly on recent call dialed, received, or missed.

Setup
1. From the Voice Tools menu, click the Personal Call Manager link.
2. Click the Call History tab.
3. Select Missed Calls, Received Calls, or Dialed Calls to view the calls in those categories.
4. You may place a call to that number immediately by clicking the number link.
