Cox Home Networking Setup

1. Getting Started
Please have the following available to begin the installation process:

![Diagram of Cox Home Networking Setup](image)

2. Choose Your Connection Type

Option 1 – Modem Only Connection
1. Connect one end of part (E) to the wall outlet.
   Follow steps 2-3 to install the Filter for Cox Advanced TV® Plus kits. If you did not receive a Filter, proceed to step 4.
2. Connect part (E) to the top of part (H).
3. Connect the bottom of part (H) to the “Cable In” connection of part (A).
4. Connect part (E) to the “Cable In” connection of part (A).

Option 2 – Modem & TV Connection
1. Connect one end of part (F) to your wall outlet.
2. Connect the other end of part (F) to the “IN” connection of part (G).
3. Connect the coaxial cable from your TV to the “OUT” connection of part (G).
4. Connect one end of part (E) to the other “OUT” connector of part (G).
5. Connect part (E) to the top of part (H).
6. Connect the bottom of part (H) to the “Cable In” connection of part (A).
7. Connect part (E) to the “Cable In” connection of part (A).

3. Connect Your Cable Modem to Your Computer
1. Connect one end of part (C) to the Ethernet connection of part (A).
2. Connect the other end of part (C) to your computer’s Ethernet connection.
3. Connect part (B) to part (A) and plug into a wall outlet.
